

PINpoint Version 6.2 Release Notes

About this Release

PINpoint 6.2 was released in September 2025. It consists of multiple enhancements.

Enhancements

Rebuild

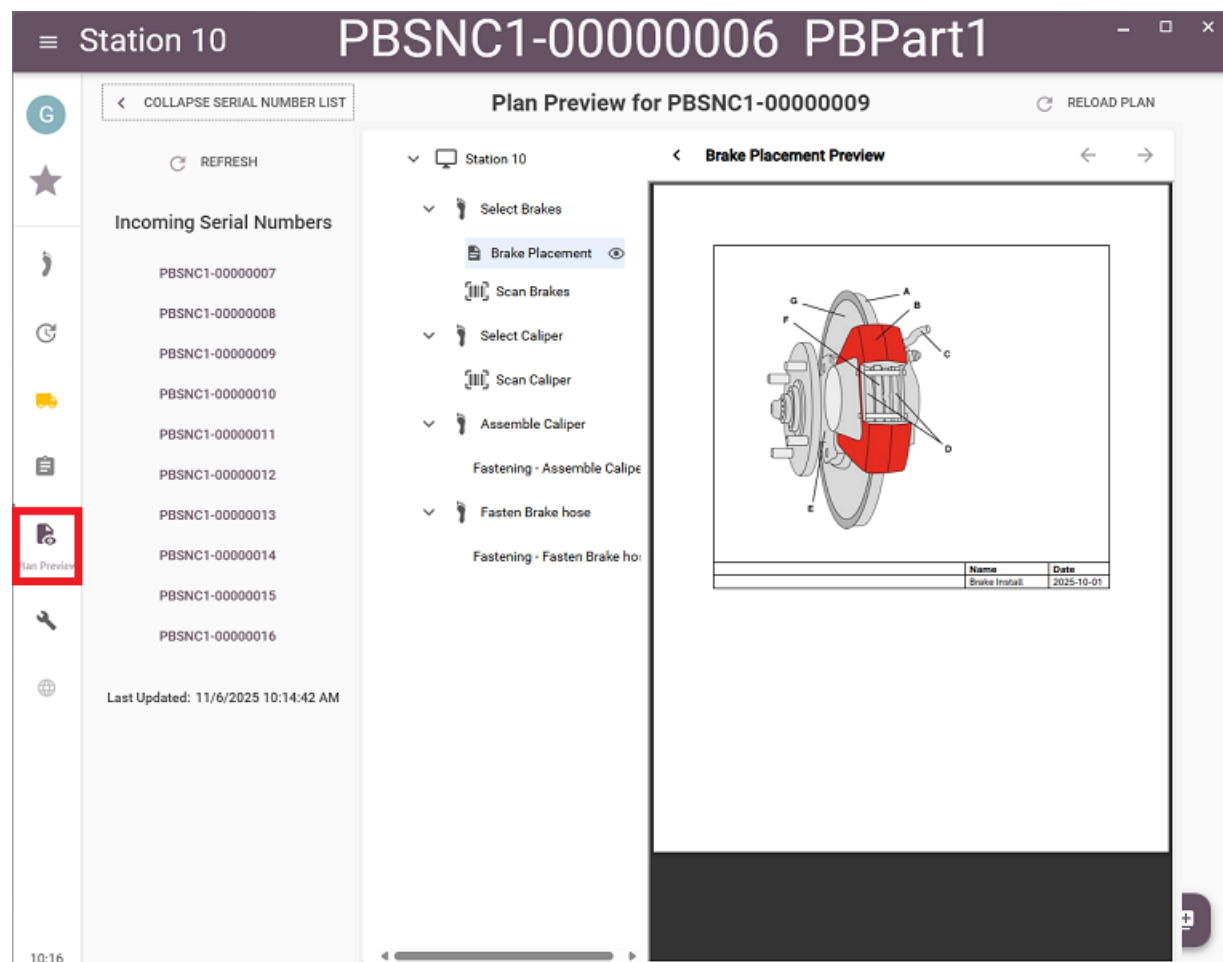

Role-based permissions have been implemented for PINpoint's rebuild functionality, giving admins the ability to control who can rebuild a product and load historical build information.

Change ID-80447

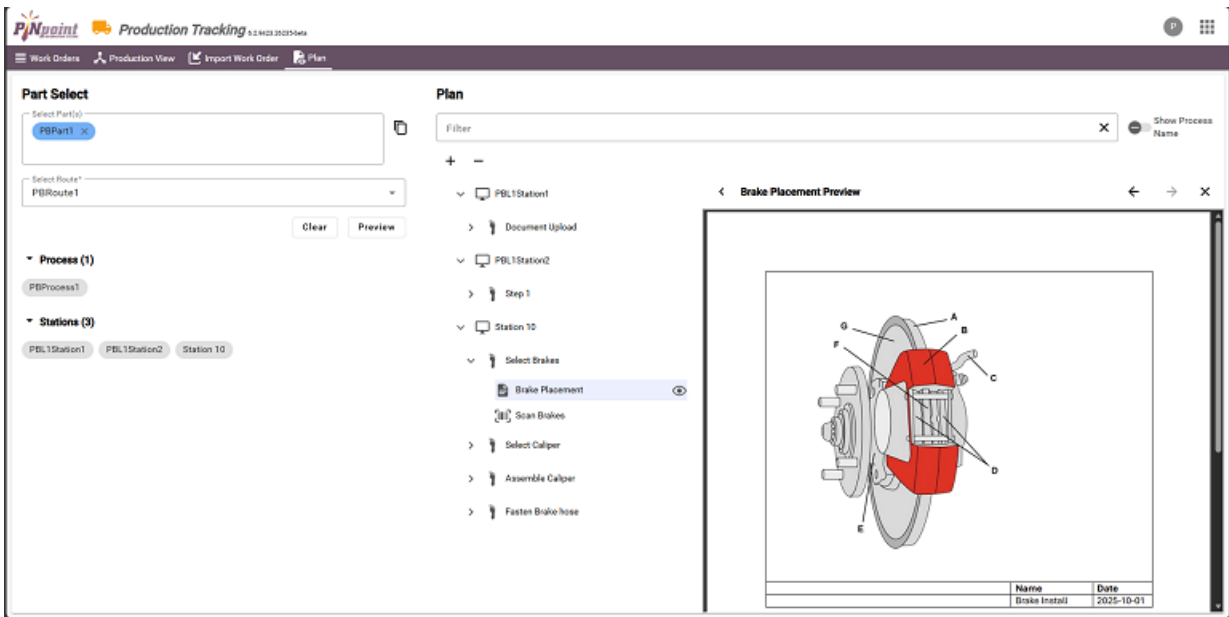

Plan

The **Plan** button has been added to SmartScreen, enabling SmartScreen users to view plan documents for the current product and the next 10 products. (The button is the third from the bottom in the left column of buttons.)

Change ID-91120

The ability to *preview* a plan document has been added. The document may be internal to PINpoint or external. Below is how previewing a document looks in the **Production Tracking** web application. Change ID-91121

Resolved Issues

This release consists of enhancements only.
